Car Licence Fees

Government's announced increases in licence fees, but they cannot expect general public support for their outery, nor official willingness to abolish the new

licensing rates. Judged by the tone of some of the newspaper correspondents, one would imagine that the revised scale of fees is going to tax them out of existence. In fact, nobody is seriously affected financially, and the unavoidable conclusion is that the protesting motorists feel more affronted by the fact that they instead of somebody else have been chosen to make additional

contributions to revenue. Pleas have / been - advanced that the family man, who finds a car a necessity for making life tolerable to his dependants, is the chief sufferer. But the suffering is relative to his means and at the worst involves the equivalent of \$2 a week additional outlay for keeping his family happy with

other beauty spots. And for the worker who can claim that his car necessary to his work. would seem that the additional licence fee could be fairly claimed back from his employer as a legitimate recoverable expense.

trips to the beaches and

Crash-Land

STRAIT INCIDENT

Washington, June 24. A US navy patrol plane was fired on by Soviet Some New planes over international waters in the Bering Strait area yesterday and crash-landed in American territory, it was

announced today. The announcement was made at President Eisenhower's temporary headquarters at Whitefield, New Hampshire, where he is at present during his New England tour.

His press secretary, Mr James Hagerty, read this statement to reporters: "On June 22 at ten o'clock in the morning a Navy Neptune patrol plane

on a routine flight over international waters in the Bering Strait area was fired upon by Soviet planes. "The commander of our aircraft was forced to make a crash-landing on

St Lawrence Island in American terrritory. "All the personnel of our plane are safe, although some are injured." "The attack on our plane was inexplicable and unwarranted.

"At the direction of the President, the Secretary of State today in San Francisco has taken up the matter with the Soviet Foreign Minister (V. M., Molotov) who said that he was unaware of the incident but would at once investigate and communicate with the Secretary of State".

tween Alaska and East Russia. It was reported here and in long series of cold war Fairbanks, Alaska, sesterday skirmishes but the first that a Navy plane had crashed occur off the Alaskan coast, on St Lawrence Island. There was no indication in the first an- incident involving US

Will Need Quarters

Geneva, June 24. Fire broke out in the villa of the Russian delegation to the United Nations here

Marshal Nikolai Bulganin, Soviet Prime Minister, or Vyacheslav Molotov, Russian Foreign Minister, were booked to stay in this villa during the Big Four conference here next month.

Damage from the fire was not great though Geneva firemen had to hack a large hole through the roof to get at the flames. The fire was under control about an hour after the firemen

Buiganin Moletov, can stay there during the "Big Four" meeting and the Russians must now other eccommodation for lecters.

NO SERIOUS DAMAGE

The reason for the fire is not One freman said: "It is not a serious fire and most of the

set. While the fiames were being put out they were having supper in another room nearby."

Just before the fire was under control five of the Russian staff in the villa-four men and one woman-were led down drive and paused for a moment outside the gates.

They chatted then made off towards Geneva, The Russian villa is situated opposite the United Nations building here,-

Amendments

San Francisco, June 24. Mr Molotov, Soviet Foreign Minister, has submitted at least one amendment to a draft "peace declaration" drawn up by Mi Eelco van Kleffens. President of the United Nations tenth commemorative meeting, it was earned today.

The Soviet representative has called for a reference in the declaration to "co-existence," Some other delegates are opposed to

Mr Van Kleffens intends make the declaration at the close of the tenth anniversary China, meeting on Sunday and has submitted his draft to delegations for their comments.—Reuter.

SPECIAL MORNING SHOW TO MORROW AT 12.30 THE COMMEND!" CinemaScope film. Warner Color

For the first time in her career Greer Garson has forsaken the city backgrounds against which she has appeared so often and taken to the great outdoors.

Many drawing room actresses have done it before, but Miss Garson has held out against it Now she is to be seen in a western-"Strange Lady in

Why the title I don't know. There's nothing particularly odd about her wish to journey from Beston to Santa Fe in the adventurous days of the late 19th century, especially as her brother is there, and later it transpires. her fether tco. 'However, as I recollect having mentioned before, there's no rhyme or reason in Hollywood's choice of illm

Her romantie partner is Dana Andrews—rather a cold fish I've always thought-however the reputation of Miss Garson must be preserved, and it would never do to team her with anyone as raffish-looking as, say, Tony Curtis!

Young Cameron Mitchell, her brother, unfortunately doesn't share the true-blue dependable qualities of his sister, the doctor, and although the bond between them is quite strong, she is righteously indignant to discover that her attractive living quarters have been furnished from moriey won at that game of the devil-"Cards."

Dana Andrews is also a doctor and naturally before the course of true love can run as smoothly as fiction tells us it does, there are several clashes between the

the two principals. There's a small part in this film for the scared little barmaid "seen briefly in "East of Eden," In this she is the daughter of Dana Andrews and a rather ripe 16 years of age."

David Farrar— A Falling Star?

When a well-known actor takes a small part in a film it either has to be a plum, or his name has to appear under the credit titles as a guest. star.

If he takes a secondary role that carries little dialogue and even that of slight importance, it harms his reputation as a star and causes the film-going public to assume he is on the down-grade,

Once this 'happens then the uphill climb back to popularity (not to be confused, of course, with genuine acting ability) is

an almost impossible one. Let's take a second or two to ament then the fall of David "Escape to Burma" would certainly never win an award for the wit of its dialogue the ingenuity of its plot or the dramatic talent of its cast. That may not be entirely the

cast's fault perhaps, with better material to hand were misguidedly led to believe that any appearance before the public was better than a long

reputations of Barbara Stanwyck and Robert Ryan in the leading him down, roles is as nothing compared with the effect it must have on David Farrar.

In 'Black Narcissus'-quite a long time ago—he made a name for himself. Nobody would even then have called him a javenile lead, but with hoary old warriors like Clark Gable still able to pull in feminine audiences, his age was immaterial, and his performance

good. In several later films he showed promise and as he has looks. acknowledged names of the British screen, such as John Mills and Michael Redgrave, it appeared that his future was

vounded, succeeds in reaching the water and diving deep down' thereby leaving room for yet another sequel to Creature from the Lagoon".

The Week-end **Choice**

In "Battle Circus" June William Holden-David Niven Allyson is a nice clean living little Army nurse who, though she has had many passes made at her, as she tells Humphrey Bogart, has never made a slip.

Which, in language we can understand, means that though the welves have hewled around her, and have often come in quite close, she has managed to hold them off with a cheery smile, turning them into friendly little dogs ashamed of their rough ways.

From which you'll gather that It's the Allyson mixture as before-naive, nice, and unshakable in her faith in the creed that there's one man for every one woman waiting somewhere. She has a hard time convincing that grizzled old hunter Bogart that romance with her can only be found within the charmed circle of a wedding ring, but her resistance, plus calmness in an emergency, finally fiel him into thinking that they're indispensable to each other and the fade-out leaves them gazing into the mists of a utopia magnificent in its blindness to reality.

This remantic approach not extended to the part of the film. almost impossible Wynn to put a foot in pictures and it's he, than Humphrey Bogart becomes the forceful character in all but the love SCOTION.

Bogart Is A Tippler

In "Battle Circus" he's a onestriking assembling a tented camp in the S 01 of time minimum paramount importance in the job the "Battle Circus" people are engaged on. Theirs is the dangerous one of getting in on foot, and by helicopter, as close can to the actual they fighting, and evacuating the

Washington. The Bureau of Printing and Engraving this week disclosed that there were about 18-\$11 notes in circulation with a \$10 denomination on the front and \$1 on the

this are roughly one in 150,000,-000. The last time it happened, a few years ago, the bills had \$5 fronts and \$10 backs. New York woman who

batch said she has been offered as much as \$500 for it. The Bureau is investigating to find out how the slip occur.

All dollar currency is printed at the Bureau's big plant at Washington.

Millions A Day

Banknotes are produced at a rate of more than eight million per day, in sheets of 18, but it takes several days to produce each one. The backs are printed the first day, then the sheet is stored overnight in a humidor. The fronts the second day, and later the seals, serial numbers and signatures.

The Bureau's belief is that a. printer received a rumpled or damaged sheet of 18 when he drew a stack from storage while preparing to print \$10 fronts on sheets which already had their \$10 backs.

He may have taken the darringed sheet back to exchange it for a good one, and may have been issued one with \$1 backs instead of \$10. He possibly then placed it on his pile, sent it through the \$10 front machine. This is one

theory being examined. All banknotes are carefully checked but the system is not fool-proof and errors have occurred before.-United Press.

He Has The Longest Title

Ottawa. The US Navy recently boasted its Vice-Admiral Arthur D. Struble had the longest title "ever held by an admiral."

Not so, retorted the Royal Canadian Navy. The champion must be Rear-Admiral Harry George De-Wolf, CBE, DSO, DSC, CD. Admiral Struble's title:

United States Navy representative of the joint chiefs of staff on th e military staff committee of the security council of the United Nations.

Admiral DeWolf's title: Principal military adviser to the Canadian ambassador in Washingion, chairman Canadian joint staff. Canadian representative of the military representatives committee of the North Atlantic Treaty Organisation and Canadian liaison representative to SACLANT. - United Press.

More News About The Frozen North

80-YEAR-OLD PLANS HIS NINTH ARCTIC TRIP

Vancouver.

An energetic, 80-year-old sailor is in Vancouver busily planning to lead another expedition into the Arctic. Rear-Admiral Donald Baxter Macmillan of Boston, veteran of the Robert Pearx dash to the North Pole 1909, will navigate his sturdy schooner "Bowdoin" wards the Pole soon. He will be accompanied by his wife and 11 scientists and students.

Since the Peary expedition, the genial Macmillan has returned seven times to the Polar ice-cap. He was once lost for four years there - between 1913 and 1917 - and six times he has remained within 300 miles of the Pole for 15 months at a time. He says millions of tons of coal and oil cover the far northern ocean floor, with one seam of coal 35 feet thick only nine degrees

from the North Pole itself. Recent claims that Commodore Peary did not quite get to the Pole disturb the Admiral. Two of the men who reached it with Peary are still alive, he points out. One is Matthew Hendson, Peary's Negro sled-driver, and another the Eskimo, Ootaq. Moreover, he adds, every geographical society in the world recognises Peary as the first man to reach it.

His Wife Is Going Too

Macmillan's wife, Miriam is one of his favourite topics. She is an author on the frozen north, has travelled 80,000 miles in the Arctic, and holds the world record as the woman who has ventured closest to the Pole. Adding to this list of achievements, Miriam Macmillan also does a fine job as first mate on her husband's northern-going schooner.

. Macmillan says their courtship was rather unique. To begin with, Miriam was just four years old when he returned from the Peary expedition. He used to bounce her on his knee, telling her tales of icebergs and polar bears. They were married in 1935 when he returned from yet another Arctic voyage.

Macmillan's schooner "Bowdoin" is strongly constructed of double timber and planks so that it can't be crushed by icebergs... The ship is frozen into the Arctic wastes for 11 months at a time, banked with snow and topped with snow houses. It usually winters at Kane Basin off Greenland. The crew of 11 comprises scientists and students in botany, zoology and anthropology in the north.

To Search For More Fish

self-winding chronometer means to you...

A chronometer is a "super watch"

It has been specially made, specially adjusted, and has passed stringent government tests for accuracy. Every Swiss chronometer is sold with an Official Rating Certificate showing just how it performed in these government tests. Particularly good chronometers are awarded a distinctive notation: "especially good results" printed on this certificate.

Before you buy a chronometer, look to see whether it is officially certified with "especially good results." Every Omega Constellation is! Automatic, waterproof, sbock-protected, antimagnetic.

You'll know the Omege

GIRL'S LONE PORTUGUESE MULE TOUR

From Paul McGreevy

Oporto. DX - DEBUTANTE, year-old Cherry Cresswell Turner has months inished a three lone tour of Portugal-on a

shiffings a day budget with a Punch and Judy show to help her along.

Her equipment: a sleeping bag. jodhpurs, a bush hat, two open-necked men's shirts and a huge sheaf knife.

She barely escaped death by drowning when the flat boat on which she was sailing down the River Douro rapids struck a submerged rock and sank.

Miss Cresswell - Turner had wanted to see how Portugal's famous port wine was taken down the River Douro from the vineyards to Oporto on, its way to Britain.

NOT AFRAID

Was she airaid? "No," she said. "I was a rowing coach at Oxford. Actually, the boat was overloaded with wine casks and she sank very slowly. The fiveday voyage down the Douro was terribly exciting. The Portuguese have been doing this for over 200 years, using the same kind of boat that I was on. We sank between high craggy banks, where the rock formation reminded me of Henry Moore's sculptures. They say in Portugal that this river trip makes the

port wine tiste better." Blonde, curly-haired Miss Cresswell-Turner is the daughter of an Air Commodore. She is stockily built and very competent in the art of self-defence, having learned judo.

I asked her if she had used her knife, and she replied: "Oh, I did brandsh it a couple of times to stare away would-be Don Juans.

people at home would love it an afternoon on the river. and I should be glad to tell them to write a book on Portugal. One Coimbra, Portugal's university city."

Introducing the Dual Throated Port Principle

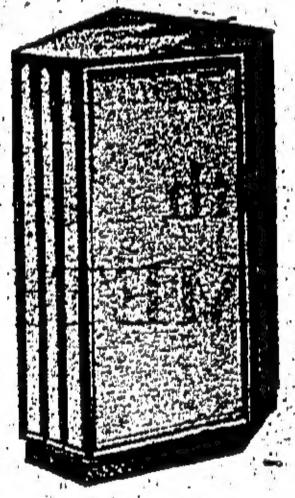

DUAL CONCENTRIC

THE LABORATORY STANDARD LOUDSPEAKER

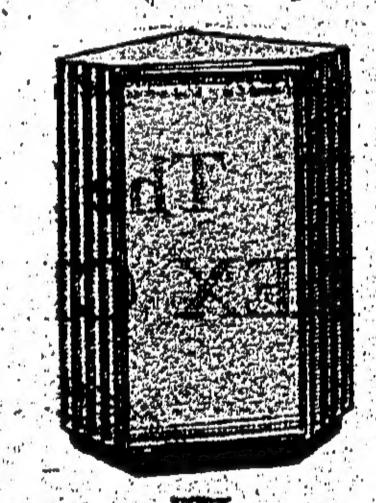

The loudspeaker enclosures in this new range are designed to take full advantage of the outstanding performance of Tannoy Dual Concentric Loudspeaker Units. For the first time the dual-throated port principle is employed, marking a notable advance on the more orthodox type of reflex cabinet. Both corner and side wall models make optimum use of the additional acoustic loading offered by walls and flow.

The TANNOY louspeaker unit is the culmination of over 25 years continuous research in the field of high. quality transducers and its adoption as a listening standard by Broadcasting and Recording Companies throughout the world is an indication of the supremacy of its performance.

Continuing THE ROYAL SUCCESS STORY

PRINCESS PERSONALITY

70 member of the Royal Family has been more discussed in the past two years than Princess Margaret! Argument about her has taken several forms.

A section of the older generation, composed of the narrow-minded who, had they lived a century "ago, would have regarded the advent of the waltz as a public scandal, has delighted in criticising her fondness for what is sometimes a called

"high life." The younger generation has material for endless in her clothes, hair and shoes. A crosssection of the whole population, led on by one or two irresponsible newspapers, has lately devoted itself to speculation about her private life and the likelihood of her marriage.

IN writing about work of the myself so far to the Queen, the Duke of Edinburgh and the Queen Mother. It seems high time that someone cust aside the idle chatter and examined the contribution that the young Princess has made to the work of her family.

to trace the development of a should be bound by the same tour, for which the Rhodesian Queen,

By Richard Dimbleby

gay, high-spirited young woman, who extracted as much fun as she could from a life bounded by eliquette, into the composed and dignified Princess who is ambassadors today.

The most significant event in the life of Princess Margaret was the death of her father. A close bond of love and understanding had always existed between them, and the news sent from Sandringham in February 1952 was shattering.

Ignored comment

THE Princess had lost a father ly, who knew exactly how she was spending her time, and who, with his strict code of duty and behaviour, would have been the first to intervene if he had thought that any of his daughter's actions were i compatible with the position and responsibilities of a royal Princess.

Of course they were not garet Hospital." I Royal Family, I have devoted Margaret enjoyed herself as other girls - born into "society". enjoyed themselves.

worked hard as well. She ignored the comments it was also the sign that she of succession to the Throne. organise her life for her and Queen in her own right. But first it is necessary members of the Royal Family role has been the Caribbean ever be called upon to become

tested on British children.

His report shows that almost vaccine all the U.S. children who developed polio after being injerted with the vaccine were given doses from a faulty batch which still contained some live germs. The rest were almost certainly developing polio as the result of natural infection before they were given the vaccine.

and with the U.S. public health

authorities. He was strongly

impressed by the new U.S.

safety methods for testing the

VINDICATED

The accident was entirely due to a fault in commercial production of the vaccine. It was not due to any basic defect in Dr Salk's methods.

His work has been, entirely vindicated by the inquiry, and the hopes that it will eventually mean the defeat of polio are as

high as ever. The failure of one batch of the vaccine must be measured aguinst the success of thousands of others. More than 8,000,000 U.S. children who were inoculawith vaccine from other

batches experienced no And there is every reason to believe that most of them are so protected by the vaccine that scores who would otherwise have contracted the disease this polio season will now escape it

can reassure British parents that there is 'no substance in the scare about "sateilita polio" —the theory that children who have been inoculated with the properly made vaccine are a source of infection to others."

When properly prepared and tested, the vaccine does NOT give the children a mild form of the disease, as some varcines have to before they can work.

PROTECTIVE

works on the principle that the dead bodies of the minute police germs from which the vaccine is made can stimulate the blood to form protective substatices which are effective against; an attack by live germs.

History will show accidental infection of the U.S. children was one of the "teething troubles" which are almost inevitable when medical rescarch enters a new field.

Remember, some people experienced severe ill effects from impurities in the early batches of penicillin. But their suffering does not detract now from the life saving power Fleming's great discovery.

In the light of all the facts the Medical Research Council is clearly right in deciding to go shead with its plans to make every safe use of Dr Salk's fine

RESEARCH

against the British types of polio germ will not start before the late autumn, and will probably be held over until next spring. There is strong evidence that the small wound caused by an injection needle can sometimes cause what would be a mild attack of polio to flare up into a crippling infection.

So the injections will not be given in the summer, when the polio risk is greatest.

risk, research is being pushed ahead to produce a vaccine which can be taken by mouth.

Such a vaccine might have

hands.

He went traipsing off to It is time we saw them both conclusion that we are never Hollywood, to act a waiter in a as they really are,

Hollywood, to act a waiter in a as they really are,

are extinguished only with life itself. Convention alone ridicules or raises its eyebrows at a the amours of the elderly. The facts tell a different tale. Consider what some of the

older men have been up to outside the acting protession. Two most publicised marriages in the political world in recent times have been those of Sir Anthony Eden, aged 55, and Herbert Morrison, aged 67. And, in one sense these two must be classed almost as adolescent suitors. At 80 Lloyd George married

his secretary, who was then 55. Confining this record to those whose affairs have actually led them to the altar we can extend list endlessly: Ralph Vaughan Williams married at Sir Alexander Korda at 60 and Bertrand Russell at 80.

 Nor are late romances only a phenomenon of modern times. Way back a few hundred years Sir Winston Churchill's ancestor the Duchess of Marlborough received two proposals after she

A brimstone

And she, be it not forgotten, had truly earned her reputation "A brimstone of a wife." Nearly half a century ago Bernard Shaw, to his astonishment, suddenly found himself in love with Mrs Patrick Campbell, mother of a grown-up daughter. .His love letters are part of our literary heritage.

writes, "and walked on air for all that afternoon and the next day as if my next birthday was stars are so common that we my 20th. I could think of nothing but a thousand scenes of which she was the heroine a ripe old age often maintain and I the hero and I am on the verge of 56. Summer Shoes Are Gay, There's Restraint In Use Of Trimmings The

CHOES this summer gayer than ever.

Colours range from off-white Angelica shade to vibrant tan; from a new yellow called Absinthe, a pastel Columbine pink and blue to a "shock" range which includes Poster a bright, Grotto red and

binations are also "the rage" A new striped effect on black patent looks very good. Up to the minute, too, with some of the latest A-line garden party and Ascot outfits, are shoes in the new lustre calf with candy stripes in colours matching the

STRIPED HEELS

Mr Edward Rayne, Queen Elizabeth's shoemaker, who also makes shoes for Princess Margaret and all the Royal ladies, is showing them with striped heels and a matching bow on front of low-cut court A variation of this theme is a combination of contrasting shades for the and heel. Thus, a black patent shoe has pink, yellow or red collar and neels. An angelica calf has a juniper calf collar and heel.

On some models, Mr Rayne, goes the whole hog and gives us frankly two-toned shoes Half of one open toe, sling-back model is in blue, the other haif in columbine pink. Or there is a similar combination of lavender and yellow, sycamore and ivory, and so on.

DRAMATIC EFFECT

headline shoe news this summer, Practical, hard-wearing calf has been given a mother o'pearl finish and has invaded the cocktail scene. ..

Jewelled effects on calf skin carry it right through the evening, while a new tanning process reproduces a fabric ap pearance on leather.

perhaps, is the introduction of biring, you can now help him (or vinylite a new plastic material which "gives" to the foot and for increased comfort to the "naked look."

If this summer, you see one of the foot, do not be alarmed. Closer inspection will reveal a in vinylite, transparent, invisible, but holding the shoe firmly and comfortably

Other models in Mr Rayne's summer range appear to be made of nothing but a. few narrow strips of pastel-coloured leather or a ring of coloured rhinestones. Very smart for evening is a sandal of very fine gold kid strips over vinylite, finished with an oblong vamp clasp composed of three glittering stones.

NOYELTY NUMBERS

Another invention which adds comfort to the "naked look" this summer is the spring-ospecially designed elastic insole, invented by an Oxford lawyer, which holds even a high-heeled, backless mule firmly to the foot.

An original model by Dolcis which is fitted with this invention has only a flameshape "wing" on one side of foot. Without sides or back and fitted with a stiletto heel, it is stated-improbable as it may seem to look at that the spring-o-lator holds firmly clamped to the foot,

Two novelty numbers made by this firm with shoe shops all over the country, are a flat,

Heim's own printed fabric — Ledoux, with a divided skirt similar); and the popular court warm water, and replace it here, the other two-piece outblack lines emblazoned with wrapped half-way round over shoes adapted in rainbow and daily, unless you have added a black lines emblazoned with wrapped half-way round over shoes adapted in rainbow and daily, unless you have added a modernistic splashes of yellow, one short and one long trouser postel-coloured kids.— China flower preservative to the

back strap and no vamp at all.
The sole is held to the front of
the foot by means of a walnut
on the end of a string which is passed between the big toe and the one next to it.

"A pair of "flatties" for sports or country wear in flexible call is furnished with looped tongues on the front. The loops carry two shades of lipstick.

AND THE A-LINE

Novel holiday and seaside shoes include courts made in the same material as the dress carrying fringes or tiny bows at the heels, and sandais made of multi-coloured raffla, inspired from Italy.

Slimmer lasts, tapered shoes and never thinner heels reflect horizontally the vertical tapering of the A-line. But while heels get ever more spindly, "illusion heels", practical for many women and not least for the business girl who wants to look smart, yet canot wear extremily high heels, are becoming more and more elegant -as well more and more

WALKING ON AIR

greater restraint of the season in the use of decoration. Bow's small and flat, nailheads are pin-points only, buckles if used at all are neat and tiny. Soon, too, walking on air may become a reality instead of a mere saying.

Hikers, golfers and people who have to spend long hours standing, will soon be able to buy "air tread" shoes. These have "beliow-type" heels" which, at each step, send a gush of cool air through perforated insoles.

the late autumn-for men.

New Fashions Require Starching Know-how

front edges and the back of

THE white collar girl has water to one part starch. For moved out of the orbit the starching required for men's shirt collars, curtains, etc. use of the typewriter and the two parts water to one of starch. filing cabinet and is found. A medium starch job calls for foregather. Whether it's one for four parts water to one a suit, a coat, or a dress, ing, such as is right for dacron the smartest clothes are or nylon sheer curtains, ten distinguished by spanking parts of water to one of starch white collars of linen, of is suggested. pique, of embroidery or of

.Why, it means that there's starch in our fashions, and so it behooves the well-groomed

woman to have a nest hand with starch, either liquid or dry.

Then, too, the petticoat is still popular, and this, too, calls for starching in many instances. How to do the best end simplest starch job?

First of all, after washing and rinsing, clothes should be wrung very important, because if water is left in fabrics, it keeps them from absorbing enough starch to stiffen uniformly.

Next in a container large enough to hold the articles to be starched, measure out correct parts of starch and water. For very heavy starching, such used for petticoats, lace collers and uniforms of the type

smart women a three-to-one ratio and a light

And what does this mean fabrics like denim require less tion that has been in vogue ness as loosely woven light fab- for nearly a century. other fibre fabrics require a concentrated solution, because the penetration is not so great.

Such garments should squeezed thoroughly starch solution. Then wring out all excess moisture to prevent draining into folds and streaking. Hang to dry.

If starched garments dampened slightly, it cuts ironing time in half. Some experts out as dry as possible. This is like the idea of chiling them by placing in the retrigerator, since this tends to speed up proper moisture distribution. But of course if a steam, iron is used there is no need for any moisten-

ing procedure. When ironing set the tempereture control one notch cooler than is normally used for the fabric being ironed.

-ELEANOR ROSS the tea.

This set of beech dining room furniture is classic with contemporary air.

Note the fine pencil legs, a dominant new feature.

laid down the party line to the comrades, published the famous Agitators' Handbook, directed propaganda.

Some time in 1952 he took over Prayda. The fact that he was in charge became public only when he addressed 2 gathering of Russian journalists in December that year.

Under his control, dust Pravda was brightened up slightly. He used more political cartoons, published more front pictures, spruced literary and art criticism.

But he also used his paper for more sinister ends. .. He used it to undermine the position of Premier Malenkov, the man who succeeded Stalin. Shepilov wrote and published

an article violently attacking the Malenkov policy of switching production emphasis from heavy industry to consumer goods.

A distinction

Shortly afterwards, Malenkov was toppled from power. And Shepilov took another step up following his boss Krusnchev, who seized the key position of party chief.

At a meeting of the Supreme Soviet, Shepilov was put up to make a speech denouncing the Western Governments.

Your Radio Listening For Next Week In Detail—A

Broadcasts From The York Arts

Among the festivals of the arts that have become an important feature of the cultural life of post-war Britain, one of the most outstanding is the one held annually in the ancient cathedral city of York.

Less cosmopolitan and more intimate than the Edinburgh International Festival, it nevertheless includes many important musical events, and six of those from the 1954 Festival have been recorded by the BBC, all of which will be broadcast by Radio Hongkong during the next two

The first programme to be heard from the York Festival is a procession of Church Music, given in York Minster by the Augmented Minster Choir, which will be on the air at 11.45 on Sunday morning.

to show the develop-English church during five hundred years, from century down to the present day.

Heavenly Har-Sunday evening Fernando Germani, the destinguished Italian organist, gives recital which was recorded in York Minster, The principal this programme is work in Bach's Toccata and Fugue in F. Major.

Other programmes in the York Festival to be broadcast Radio Hongkong this week are by the celebrated violinist, Gioconda de Vito, on Monday evening at 8.30, and a London Harpsichord ensemble, at 8,15 on Wednesday evening

MINISTERIAL BROADCAST

On Monday evening at 8.15, the Prime Minister, the Rt. Hon. Anthony Eden is to broadcast a speech to mark the Tenth Anniversary of the signing in San Francisco of the United Nations Charter.

UNIVERSITY CONGREGATION

On Monday mouning at eleven o'clock, the 47th Congregation for the conferring of degrees will be held in the Great Hall of Hongkong

Alexander Grantham, in his capacity of Chancellor of the University, and also by Dr Gordon King, the pro-/lee-Chancelion Timothy Birch. and extracts from

the speeches made, can be heard by listeness to Radio Hongkong at half his Orch.; past im on Monday evening.

KABUKI

first of a series liustrated talks on the Japanese Theatre will be on the nir on Wednesday evening at 7 o'clock. They will be given by A. C. Scott, at artist and writer living in. Hongkong who has spent several years in China and Japan, and who has recently published a book on the Kabuki Theatre with Allen and Unway and has just completed a second volume on the classical theatre of China.

He has intimate connections with the Kabuki Theatre, having acquired the distinction of a free pass for life in the Kabukiza, Tokyo-a privilege never granted to a foreigner

"THIS WEEK'

During the week there have been several meetings in the Colony commemorating the Tenth Anniversory of the signing of the United Nations Charter in San Francisco, and in "This Week", at 7.30 this evening. listeners can hear extracts from many of the speeches made at these meetings, including the address of His Excellency the Governor at the opening ceremony of the United Nations Association in Hongkong on

Tuesday.

At Taipo yesterday, traditional Dragon Boat races were held with many Europeans readent in the New Territories taking part, and there will be commentaries on the races in tonight's programme, which also includes an interview with Win Romo and his Orch.: A pretty girl Min Than, the Burnese film star is like a melody—Bill Loose and his Min Than, the Burnese film star who played' opposite Gregory Peck Orch. in the "Purple Plain".

Test Cricket Is A Two-Way Business-To Avoid Defeat; Provide Entertainment

DOOLAND

Whatever else the first Test match produced, it laid wide open the problem of slow scoring in modern cricket. From what the critics say, at his craft, but he never reach comfortable in playing on a and from the accounts of friends who were on the spot, most people felt ed a place among the stars. that 30-an-hour on one day and 25-an-hour on another just wasn't good enough entertainment for people asked to pay present day Test prices.

"As one who is earning his living out there in the middle and trying to provide some entertainment in cricket, I have great sympathy for the speciator when a match gets into the doldrums when conditions or tactics make it dull. Most cricketers should remember that we are entertainers as well as bread-and-butter

points of the modern game live to fight enother day of which are completely over the the series. On the other, it is heads of the average fan who supposed to provide bright pays his money at the turn- entertainment. Sometimes stile. If we could get a little two just cannot be brought tonearer those elementary princi-| gether. ples-which dictate that the ball should be hit hard and often by ally in the highest field of all-

We also tend to forget that lieve that these two should Test cricket is our main shop hit hard and far whenever they window. Thousands flock to appear. Tests, whenever and wherever they are staged. And it thousands love of the game by seeing batting and bowling, and fielding bowlers' defensive attack on at their very best.

week at Trent Bridge. I wasn't difficulty which faced the South They were up against the best Test attack in the world, never seem before. Moreover. they'd lost half their side with only 55 runs on the board...

THAT FIRST SHOCK

So what could they do? Have a go and perhaps throw the match away? Surely they were enditled to fight—as they 'did?' Their slow scoring was natural after that first shock served up by Tyson and Statham. And oven afterwards—when were compelled to follow-onin they could hardly have been expected to "have a go" and risk

It is all very difficult. Test

Sometimes I think we get far this, a side has to try to avoid it as easy to keep his length or too deeply dug into the finer defeat at all costs-so that it can make his experiments. After playing at Northampton

The same frustrated soccer fan whose views were published in last Saturday's China Mail in support of sending a Hongkong football team to next year's Olympic Games at Melbourne has some more to say. It is sheer logic when he begins with:

The Cost Of Travel Fluctuates With The Distance Involved

Last Saturday, through the co-operation of the Sports Editor of the China Mail, I was able to present my views on the current controversy that surrounds the decision of the Hongkong Football Association not to send a team to compete in the 1956 Olympic Games.

I believed then, and I still believe, that what I wrote represents the views. and feelings of a not inconsiderable cross-section of the football public, and I am indeed flattered that at least one established local sports writer has seen fit to offer comment on my views.

teres: that the HKFA has IN THE OLYMPIC GAMES. 'answered its critics' which It would be a thin-blockled presumably includes me by the person indeed who did not exsimple expedient of giving a perience the desire or feel the public reading to a CIRCULAR thrill of representing his native the separately to enter a toun. let'er received from FIFA.

DORN today, you are very ambitious and you are apt to "bite D off" more than you can chew. In other words, you make big promises which, sometimes, you have difficulty in fulfilling. At other times you deliver right on schedule, and are considered something of a Mr Miraculous. Of course, the trouble is that when you can't back up your boasts the disappointment is all the more severe, and the failure looks that much bigger. The lesson Just don't talk about your plans too much. Let your actions speak for you, first.

SATURDAY, JUNE 25

"My wife is just as beautiful today as she was when

married her twenty years ago of course, it takes

There are two sides to your nature: one is that of a continual dreamer; the other, an individual of original action. Sometimes it is one that functions; sometimes the other. You must first learn to understand yourself in order to be correctly understood by the rest of the world. You have a good speaking voice and probably would do well as a lecturer, a politician - even a preacher, if you were to be moved to be one.

You enjoy variety and change, believing that both are the real spice of life. Nothing is worse for you than to be placed in a dull, routine job. Avoid this if you can-but if you do land in one, take the time on off hours to look for something which will be a challenge to your originality, and initiative.

You should have an especially happy wedded life and will probably accumulate considerable of the world's wealth during your lifetime. With you, a penny saved, is one really earned

DORN today, you must learn to control your emotions-or else D let them control you and then take the consequences. You blow hot and then cold on an idea and often leave something important in mid-air. Learn to follow through, once you have begun a job and you will find that success comes more quickly. You have a good memory, a fine head for facts and figures and are interested in scientific investigation, but unless you learn to control your moods, you will not get as far as you may hope. You have a bad temper which holls over at inconsequential

things-and stays calm in moments of crisis. The latter is important, but your path through life will be easier if you will learn to control your temper all the time! Your affections are deep and lasting and you will make any kind of sacrifice for the one you love. You of the feminine sex are loving and devoted life-partners and, since you are fond of children, you will want a large family of your own. You are

a fine mother-except when you lose patience now and then. But this, you can learn to control if you try. Since you are so inclined to forget and forgive, once the storm has past, you must remember "that others may not be quite as quick to forgive-and that's where the trouble begins. Among those born on this date are: Frieda Hempel, einger

Lord Kelvin, physicist and astronomer; Arthur Middleton. patriot; Pearl Buck, novelist; Peter Lorre, actor; Alexander, scientist: Sidney Howard, playwright. To find what the stars have in store for you tomorrow, select your birthday star and read the corresponding paragraph. Let

V Maggio standing on third base, a few years ago, the New York Yankees needed one run to win a baseball game. There was one out. kind of a hit, includa long fly, could win the game-and the American League pennant.

The Yankees didn't take chances. The batter, Rizzuto, dumped a perfect bunt and DiMaggio easily scored on the "squeeze play."

Good bunters aren't too common these days because so many batters would rather swing for home runs. Knowing how bunt is a good way to catch a

coach's eye. The sacrifice is the most important bunt, since it can vance a teammate already on base whether or not the batter is thrown out. For this reason the sacrifice requires less secrecy than other types. The batter faces the pitcher, bringing his back foot almost in line with his forward foot. He slides his tophand about half-way along the bat, for better control. The top hand holds the fat part of the bat in a loose grip. Thumb and two fingers are enough.

The bunter aims at the top half of the ball, to knock it down on the ground. A fly ball would be a disaster, with a teammate already running on signal. The about three feet inside either foul line, gently enough so that about one-third the distance to much.

first or third base. If the bat is held straight across the plate, straight pitch will bounce directly back towards the pitcher. should be angled, therefore, according to where the bunter wants to place the ball, and depending on the angle at which the ball is thrown by the pitcher. The best practice for learning

how to control these angles is a "pepper game," in which several players line up about 40 feet in front of the batter. The batter tries to aim all throws at each "fielder" in turn, The squeeze play, with a run-

SOUTH CHINA MORNING POST HONGKONG & KOWLOOM

in Dartwords today is WATCH-CHAIN and the destination is a famous little Sussex village called PILT-DOWN. You have to make the journey by rearranging the other 48 words in the circle in such a way that the relationship between any word and the one next to it is governed by one of six rules.

1. The word may be an anagram of the word that precedes it.
2. It may be a synonym of the word that precedes it. 3. It may be found by adding one letter to, or subtracting on a letter from, or changing

one letter in the pre-4. It may be associated with the preceding word in a saying, simile, metaphor, or association of 5. It may form with the pre-ceding word a name of a well-known person, place, or thing in thet or netion.

A typical succession of words might be: Cold Blue Boy Coy Coay Posy Post Stop Gap Gamp Umbrella. (Solution on Page 20)

• JACOBY ON BRIDGE

Here's A Play To Test Your Savvy

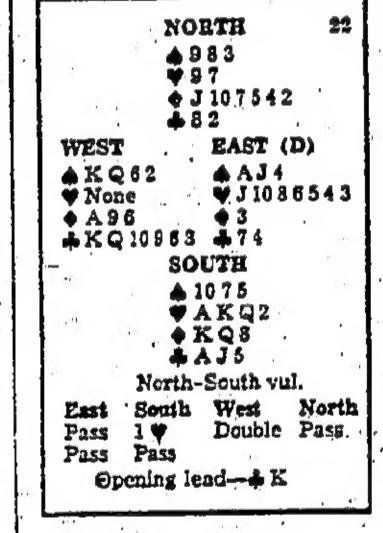

By OSWALD JACOBY

66TE/HAT should I have done with the South hand?' asks a Dallas correspondent. "I suspected"that I was in trouble when East passed the double of one heart, but I didn't know how to wriggle but. I wasn't sure that a redouble would clearly demand a rescue by North; and if there was any chance that North would pass I certainly didn't want to redouble. I finally decided to pass and take my chances at one heart doubled.

"The defence was accurate, and I took only my three top trumps and my ace of clubs. West opened the king of clubs, holding the trick, and switched to the king of spades. East overtook with the ace of spades to return the jack of hearts.

"I won with the ace of hearts, cashed the ace of clubs and ruffed a club in dummy. East overruffed and led the three of hearts to force out my king of trumps. I led a low diamond. trying to sneak the trick by. out West stepped up with the 1. K-B2, 1 . . . P-Q6; 2, Ktace of diamonds, and led anqueen of spades, other diamond.

"East ruffed and led another trump to force out my queen.

Now there was no way to slop East from taking the rest of the tricks. I lost 800 points on a hand that was fairly safe at two diamonds, but the question is how to get to that contract."

Most experts play a redouble pot throwing. Dr Smart-Allick, On top of the world in this position as demanding a who presided, could not make takeout. When you're not sure himself heard, and the history that your partner will under- master who started the trouble stand the redouble, you get on by giving a boy one mark out your bicycle and pedal away for of 100 had to have police dear life.

JOHN CLARKE'S CASEBOOK

Vanishing

MAIN had stopped repair work to the roof of the small hotel. Joe, the man who had come to do the job, was down below in the kitchen regions, talking to the hotel's craggy, white-haired proprietor, who was busy ironing blankets.

'See you've got two vacuum cleaners, Joe ' "One's

answered. "I'll take it and get it fixed; know a place," Joe offered. thanks. I'll take it to the makers sometime. place....'

this pressed, not prepared lightly to give up his good deed. The other grunted and got on with his broning. He looked up few moments later. Joe had gone. So had the broken vacuum cleaner.

THAT'S HIM

ifortunately, found a policeman. There's a man just stolen my vacuum cleaner," he panted. policeman looked "That's odd," said, "I've just seen a fellow with a vacuum cleaner standing talking outside a cafe. oetter come and see if it's your

Eagerly the other follow∈c the policeman, "That's him. 10 charge him stealing," he cried, as he caught sight of Joe. who was still talking, leaning on the vacuum

At the Clerkenwell court next morning Joe pleaded not guilty to the theft, and the hotel proprictor told of his talk across the ironing board and of Joe's sudden departure.

GRUDGING AFFIRMATIVE magistrate, Mr "might he not have

hought you had told him take the cleaner eway?" "Och, no, he was welshing l with it all right,"

worked for you before, hasn't "He's done a few botched

"But you knew the firm worked for, didn't you?

- him?" The hotel man grunted what ment, might have been a grudging offirmative.

SHOCKING TALK THE magistrate turned to Joe. "Did he see you leave with

the cleaner?" he asked. "Yes, sir," Joe answered. "Did you?" Mr Powell asked the cleer man,

now it turns out it's Smith " called me 'Joe' for about a tem.

Joe was shown to the witness "Why should this man get it into his head that you told him your name was Jones?" Mr Powell asked.

talks a bit barmy, at times bout being fed up, and going to cut off his headshocking talk like that," Joe answered.

WEONG TO CONVICT **COTTE** says that you're often

saying odd things," the magistrate said to the hotelier, recalling him for a moment "Is that so?" "Couldn't carry on a 'hotel if

was curious in any way." he answered.

The magistrate sighed, "Well it's a case of oath against oath. Clearly it would be wrong to convict the defendant on -this evidence," he said. "I shall

left by another door.

Both looked a little soured by their experiences. Joe's planned good deed and the old man's swift effort to frustrate it, both seemed to have ended in-well in a vacuum.

EUROPEAN

Steel Community To Embark On Next Step **DECISION** MESSINA

Strasbourg, June 24 Rene Mayer, President of the and Steel Community's Coal High Authority, told the Common Assembly here today there was no question putting the Community on ice or super-national from its removing pedestal.

Assembly speech approved unanimously, with one abstention the decision of the Messina conference of Foreign Ministers on June 2 to embark on the next stage of European integration.

PUBLIC OPINION

M. Jacques Vendroux of

France said public opinion
